15th January 2026

Dear Year 1 parents,

PSHE topic this term – Same and Different.

During PSHE this term, in line with the National Curriculum, so far we have been looking at the things our children like/dislike, what they are good at and find tricky, what makes them special and what are our special strengths and qualities. We have also been discussing the similarities and differences about how we look. As part of this series, we will be looking at the physical differences between boys and girls. We will be using the correct biological names for these parts including vagina, vulva, penis and testicles. We are asked to teach these terms to equip our children to explain exactly if they have any pain or discomfort or they need help. These terms equip them to securely explain where on their bodies they may need assistance. Please be assured these names will be used in context in the format of a prepared PowerPoint and explained in a gentle way.

We will be teaching this lesson on Tuesday 27th January.

Many thanks

Mrs Buckley
Year 1 Teacher
